Work Experience

Self Employed | 2018.04 ~ Current

Presidenet

I solve various kind of technical problems as an independent consultant.

- AWS managemnet (EC2, RDS, ElastiCache, ECS, Lambda, CloudFront, CloudWatch, etc.)
- React + Almin
- Improve React Native app working flow using Fastlane
- Create React Native tutorial for Programming education company
- Consult business strategy for startups

Traimmu.inc | 2017.03 ~ 2018.04

Lead Engineer

I work on broadening the scale of our web application (<https://www.in-fra.jp>). When I first joined the company, the application was a little outdated in both infrastructure and code, so our major task is refactoring the program. I've decreased application's TTFB by 2000ms.

- Replace jQuery with Vue.js
- Refactor Laravel source code
- Create iOS App with React Native
- Change the infrastructure from Heroku to AWS EC2
- Improve deployment process using Ansible on CircleCI
- Implement easy setup development environment Docker
- Visualize business KPI with Metabase
- SQL tuning

Quick CO., LTD. | 2015.04 ~ 2017.02

Sales (2015.04 ~ 09), Engineer (2015.10 ~ 2017.02)

I worked in sales first half a year. In the sales department, I made appointments with new customers, and secured contracts with them. Then I moved to the engineering department, where I conducted maintenance on internal systems.

- Sale of Human Resource solutions
- Create new functions with FuelPHP
- Build systems

OSS Contributions

- **fzf** <https://github.com/junegunn/fzf>
 - Fix a bug for FishShell
- **ActiveHash** https://github.com/zilkey/active_hash
 - Fix documentation mistype
- **enhanced** <https://github.com/b4b4r07/enhanced>
 - Add new functions
- **xremap** <https://github.com/k0kubun/xremap>
 - Fix a bug for Awesome Window Manager

Development Skills

- Linux (5 years)
- PHP (5 years)
- HTML, CSS (5 years)
- Laravel (2 years)
- JavaScript, ECMAScript (2 years)
- SQL (2 years)
- AWS, CircleCI, GitHub (2 years)
- Node.js (1 year)
- Vue.js (1 year)
- React, React Native (1 year)
- Docker (1 year)
